BULL'S-EYE

THE TOUGH NEW UTILITY FOR THE TOUGHEST PROTECTION ON THE MARKET!

Rapidlok™. It's the toughest copy protection on the market today, and it's being used by several major software houses to copy-prohibit some of the finest titles available for the C-64.

Now, you could go broke buying expensive "official" backups of programs you've already paid for. Or, you can exercise your legitimate right to make your own backups. No special knowledge or experience is required. All you need are a few blank disks and five minutes of time. **Bull's-Eye** lets you create your own custom *Rapidlok*™ copiers to backup your expensive software!

We've even included several special *Rapidlok*™ copiers to get you started. Including: *Ace of Aces*™ *from Accolade*™, *Dr Ruth*™ *from Avalon Hill*™, *Gunship*™ *from Microprose*™, *Operation Terminal*™ *from Dreamrider*™, *Spy vs Spy*™ *from Avantage*™, *and 1942*™ *from Capcom*™, just to name a few!

- **Bull's-Eye** works with all six versions of *Rapidlok*™ released as of November 1987. It will work with titles released in the past and even with new titles not yet released! This is the system that suceeds where others fail!
- **Bull's-Eye** handles a lot more than *Rapidlok*™. You'll also get a special utility that allows you to backup most of the protected C-64/C-128 titles from Timeworks™.
- **Bull's-Eye** also features a powerful new GCR nibbler developed specifically for this system!And if all that isn't enough, **Bull's-Eye** also contains a revolutionary new copy system for GEOS™!
- **Geosbusters** is the first copy system to be used exclusively within the GEOS™ environment. Fully icon driven, it runs directly from the GEOS™ desktop!
- **Geosbusters V3.0** can be used to make backups of GEOS™ V1.0, GEOS™ V1.2, GEOS™ V1.3 (5 known versions), Deskpak™, Writer's Workshop™, Geofile™, Geodex™, Geocalc™, Geopublish™, GeoSpell™, GEOS 128™ and Geowrite 128™. **And it works for both brand new and previously installed disks!**

***THE *RAPIDLOK*™ COPIER**
*CREATES CUSTOM *RAPIDLOK*™ COPIERS!
*WORKS ON ALL 6 VERSIONS OF *RAPIDLOK*™!
*INCLUDES *RAPIDLOK*™ VERSION SCANNER!
*BONUS: 28 SAMPLE *RAPIDLOK*™ COPIERS ON DISK!

***TIMEWORKS™ COPY UTILITY**
*Copies C-64/C-128 Timeworks™ Titles!

***GEOSBUSTERS V3.0**
*GEOS™ BACKUP UTILITY
*ICON DRIVEN - EASY TO USE!
*RUNS RIGHT FROM GEOS™ DESKTOP!

HEAVY-DUTY COPIERS BACKUP THE TOUGHEST TITLES AROUND!
